- People, Skills and Training
- Material Sustainability
- Long-term frameworks

Specification

- Specification and asset-led aspirations
- Clarity on the solutions
- Deliver to the standard and measure
- Specifying for future affordability

British Lime Association

16th November 2017

Joined up Delivery

- Interdependent providers
- Transfer of responsibility and risk?
- Utility partnerships
- Working with Developers
- Road-space management

Innovation

- Have we stifled innovation?
- Unlock potential through the supply chain
- Outcome and Application rather than the product
- Encourage incentives

Summary

- Thinking and planning for the longer term
 - Joining up the infrastructure interdependencies
 - Developing materials for the outcome
 - Investing in people, equipment and material based on visible and consistent need
 - Measure consistently and share results
 - Be honest to the outcomes and deliver to them
-
